Monuments and cultural activities - Our recommendations

Among all the historic buildings that Seville treasures constructions stand out that you cannot miss. A set that was declared by the UNESCO World Heritage Site: the Cathedral with the Giralda, the Archivo de Indias, the Real Alcázar and Plaza de España

→ **Cathedral of Seville** is the largest Gothic cathedral in the world and a UNESCO World Heritage Site. Built on the site of a former mosque, it houses the tomb of Christopher Columbus and features the iconic Giralda bell tower.

→ **Torre del Oro** construction dates back to the thirteenth century, when it formed part of the Almohad defense system. Inside is the Naval Museum, which houses important documentation on the nautical history of Seville.

→ **Plaza de España** an emblematic monument of the city, designed by the architect Aníbal González. It was the headquarters of the Latin American Exhibition of 1929. Really a must of Seville together with Maria Luisa Park, that counts with an area of 340,000 m2.

→ **Setas de Sevilla** a bold modern structure towers over the Plaza de la Encarnación, officially known as Metropol Parasol.

→ **Archivo de Indias** is a UNESCO World Heritage Site that preserves invaluable documents related to the Spanish colonies in the Americas. Housed in a Renaissance building next to the cathedral, it offers a glimpse into the history of the Spanish Empire.

Flamenco, the soul of Andalusia

Flamenco is the most iconic dance of Andalusia, expressing deep emotion through powerful movement, guitar music, singing, and rhythmic clapping. Born from a rich blend of cultures, flamenco is a symbol of the region's passion and identity

Experience the rhythm

Feel the energy as your whole body resonates with the rhythm of stomping heels and heartfelt clapping during a unique and unforgettable flamenco "tablao" performance in Seville
