

Project Partners must promote the actions and results of the project by providing targeted information to multiple audiences in a strategic and effective manner. All communications and publications must comply with European Commission rules for dissemination as set down in the Grant Agreement (Art. 36). Any Communication activity relating to the action (including in electronic form, via social media) and any infrastructure, equipment and major results funded by the grant must:

(a) Display the EU Emblem on all outputs. (when displayed with another logo, the EU emblem must have appropriate prominence)

(b) Include the following text:

**‘This Project has received funding from the European Union’s Horizon Europe research and innovation programme under grant agreement no 101060937’**

## **Logo MARBEFES to download**

MARBEFES (MARine Biodiversity and Ecosystem  
Functioning leading to Ecosystem Services) involves  
22 research institutes from 15 European countries  
– from the warm shores of the Mediterranean,  
to oceanic shores of Western Europe, brackish  
Baltic and icy Svalbard archipelago.

MARBEFES

AIMS

To determine the links between  
the biodiversity and functioning  
of the coastal and marine ecosystems  
and the resulting ecosystem services  
and societal goods and benefits.

To perform ecological  
and socioeconomic valuation through  
a validated toolbox enhancing policy  
and governance decisions aimed  
to secure marine ecosystem services  
for current and future generation.

To analyse the causes  
and consequences of changes  
in marine biodiversity and their  
ecological and economic values  
and their repercussions for the  
governance of European seas.

WHAT IS  
MARBEFES?

MARBEFES is a 4-year EU project that  
researches how marine biodiversity is linked  
with goods and services provided by marine  
ecosystems, in order to create policy  
and management tools that support informed  
decision-making.

MARBEFES project has received funding  
from the European Union's Horizon Europe  
research and innovation programme under  
the Grant Agreement no 101065937
